Soft skills

Methodical & Detail-oriented

Autonomous

Adaptable

Experience

Apr 2025 - Present France (Remote)

 AI Tools & Automation Developer
Nexitura

Building **AI-powered n8n automations with custom web interfaces to optimize operations**, such as a workflow that uses LLMs to extract and structure documents, paired with a custom web interface that allows users to view and edit the content.

N8n  ReactJS  ExpressJS 

Mar 2024 - Apr 2025 France (Remote)

 Frontend ReactJS Developer
Nexitura

Built **an educational web-based video game that teaches cybersecurity concepts** through daily quizzes and dialogue-driven challenges. The game includes rewards, player rankings, customizable profiles, and an integrated shop system to boost engagement.

Game Design  ReactJS  Symfony 

Mar 2022 - April 2023 Madagascar

 Fullstack Developer
CPA SARL

Modernized **an internal Accounting CRM platform**, improving usability, performance, and client collaboration with real-time tracking, performance dashboards, and administrative tools for user management, permissions, and system configuration.

ReactJS  Laravel 

Nov 2021 - Mar 2022 Madagascar

 Fullstack Developer
CPA SARL

Developed **a web-app solution that automates the management of fiscal declaration bundles** to help companies and accountants reduce workload and ensure compliance. The platform streamlines document submission, detects accounting anomalies based on CGI tax rules, and automates up to 80% of data processing.

Laravel  VueJS 

Education

 Sept 2025 - Dec 2025
JSM Masterclass

Fullstack Web Development
Masterclass

 Jan 2024 - Dec 2024
Ony Academy

Formation in Game Design
and Game Development

 Jan 2020 - Mar 2023
ESTI

Bachelor's degree in Web
Development (Grade A+)

Achievements

 2025 - Gameload
Audience award

A Gamejam focused on making a multiplayer game featuring both collaboration and competition

 2023 - 24h by webcup Madagascar
3rd place

A hackathon centered on using AI to interpret and explore the meanings behind dreams
